Subject: Rg 1/2005: Range of temperatures

Dear Dr. Simonin,

Point 3.1., Chapter VI of Annex I to Council Regulation 1/2005 stipulates a range of temperatures from 5°C to 30°C within the means of transport, with a +/- 5° C tolerance.

1. To our knowledge the acceptable range of temperatures is still under discussion and according to our experience the temperature requirements given in the regulation are not followed by the Member States.
2. May I please have your opinion, if Point 3.1. can be enforced presently.
3. I am looking forward to your reply.
- 4.
