Betreff: RE: Rg 1/2005: Range of temperatures

Dear Ms Baumgartner,

Thank you for your email. The range indicated in your message comes from the current legislation (Regulation (EC) No 1/2005) and since the regulation applies, the temperatures standards are also applicable.

It should be noted that this standard of temperatures was already applicable through Council Regulation (EC) No 411/98 from July 2009.

The fact that the Commission is working to revise those standards does not affect the applicability of existing standards.

Hope that this clarifies the issue for you.

Best regards,

Denis SIMONIN
